

NOVAHAUS

INTERNATIONAL BRAND GUIDELINE

NOVAHAUS

Brand idea

- NOVAHAUS makes growth clearer, more useful and easier to operate.
- The identity combines the calm authority of a premium design practice with the practical intelligence of modern digital systems.
- Tone: precise, strategic, warm, confident and commercially honest.

NOVAHAUS

Logo system

- The C2 geometric N/H monogram is the primary identity asset.
- Use the mark alone for avatars, icons and compact applications. Use the horizontal lockup when the NOVAHAUS name must be read.
- Keep clear space equal to at least one outer monogram stroke. Never add glow, bevel, distortion, container shapes or unapproved colors.

NOVAHAUS

Color system

- Obsidian #0B0B0B
- Champagne Gold #C8A24A
- Porcelain #FAFAF8
- White #FFFFFF
- Stone #77736A
- Gold is a controlled accent. The system should remain mostly dark and light so the accent keeps its authority.

NOVAHAUS

Typography

- Space Grotesk for display headlines and high-level brand statements.
- Inter for body copy, interface labels and supporting information.
- Use sentence case for communication. Use all caps only for short labels, eyebrows and metadata. Keep long-form copy at a generous line height.

Interface language

- Buttons: 48–52 px primary height, restrained radius, clear focus ring.
- Cards: 20–24 px radius, 1 px border, quiet shadow and generous padding.
- Icons: geometric, monoline and purposeful. Avoid generic robot, circuit or sparkle motifs.

NOVAHAUS

Imagery and illustration

- Choose architectural compositions, material details, editorial work and systems in use.
- Use measured grids, lines, points and modular shapes when a diagram helps explain a system.
- Avoid stock-photo clichés, neon cyberpunk, glossy device mockups and decorative complexity.

NOVAHAUS

Marketing formats

- LinkedIn 1584 × 396
- YouTube 2560 × 1440
- Facebook 1640 × 859
- Twitter/X 1500 × 500
- Instagram 1080 × 1080
- TikTok 1080 × 1920
- Keep critical copy inside platform-safe margins and use one message per asset.

NOVAHAUS

Launch checklist

- Use the approved C2 vector master.
- Check contrast at the final export size.
- Keep gold as emphasis, not decoration.
- Review every crop on a phone before publishing.
- Make sure the message is understood in one second.
- Archive editable source files with the final PNG export.
